LinkedIn: [linkedin.com/in/shehuusman](https://www.linkedin.com/in/shehuusman) | Portfolio: shehuusman.me

Location: Kaduna, Nigeria | NYSC Status: Currently Serving Corps Member (Pass-out: August 2026)

PROFESSIONAL PROFILE

Computer Science graduate and currently serving NYSC Corps Member with a BCA from GITAM University, India, and over two years of practical IT support and systems administration experience. Prior hands-on IT internship at NNPC Limited in Kaduna, where I provided first-level technical support across a large multi-department enterprise environment managing user accounts, maintaining hardware and software systems, and logging support resolutions. Supplemented by active systems administration experience running live client web platforms, managing server configurations, and resolving technical faults remotely. Certified in Cybersecurity (ISC2 CC), with strong grounding in access control, data protection, and security best practices. Proactive, organised, and committed to keeping IT infrastructure and end-user systems running without interruption.

TECHNICAL COMPETENCIES

Operating Systems	Windows 10/11, Windows Server basics, Ubuntu Linux
Hardware Support	Desktops, laptops, printers, networking equipment -- troubleshooting and maintenance
Networking	LAN/WAN, TCP/IP, DNS, DHCP, VPN concepts, firewall basics, SSH
Software & Productivity	Microsoft Office 365 (Word, Excel, PowerPoint, Outlook), Active Directory principles, helpdesk ticketing
Security	Access control, antivirus management, data backup, user provisioning and de-provisioning
Programming	Python, PHP, JavaScript, SQL, HTML/CSS, Bash
Cloud & Hosting	Railway, Supabase/PostgreSQL, environment configuration and deployment
Documentation	Technical reports, SOPs, incident logs, Microsoft Office Suite, Git

PROFESSIONAL EXPERIENCE

NYSC Corps Member (Currently Serving)

2025 - August 2026

National Youth Service Corps, Nigeria

- Currently fulfilling NYSC mandatory national service at KADIRS, demonstrating commitment to structured professional responsibility and institutional discipline.

[Cyber Security Management Simulation \(Virtual\)](#)

February - April 2024

ANZ Australia, via Forage

- Conducted structured analysis of phishing and security incidents, producing written investigation reports that demonstrate technical documentation and fault-diagnosis capability applicable to IT support environments.
- Investigated and documented security incidents end-to-end, strengthening the structured problem-solving and reporting skills required for daily IT support work.

[IT Support Specialist](#)

November 2019 - September 2020

Nigerian National Petroleum Corporation (NNPC Limited), Kaduna, Nigeria

- Provided first-level technical support for hardware, software, and network issues across multiple departments in a large enterprise environment; resolved 95% of reported incidents independently.
- Managed employee user account creation, access permissions, and password resets, maintaining accurate access records across IT systems.
- Installed, configured, and updated operating systems (Windows) and software applications including Microsoft Office Suite; maintained IT asset inventory.
- Monitored computer systems for malfunctions, performed routine maintenance and updates, and escalated unresolved issues with full documented logs.
- Provided end-user training on software applications and IT security best practices.

RELEVANT SYSTEMS AND TECHNICAL PROJECTS

AJS Wholesale -- IT Systems Administration and Support

2026

Commissioned by Alh. Jafar Sidi General Service, Kaduna, Nigeria

- Built and administered a full PHP/MySQL inventory and point-of-sale system for a live business, managing all server configuration, user accounts, permissions, and ongoing technical maintenance.
- Managed a four-tier user access system (superadmin, admin, manager, accountant), handling provisioning, de-provisioning, session management, and access controls for all users.
- Troubleshooted and resolved software bugs, database errors, and system faults independently; maintained documentation of all technical configurations and updates.

Verigist -- Cloud Infrastructure Management

2026

AI-Assisted Scam and Phishing Detection Platform, Kaduna, Nigeria

- Configured and managed full cloud hosting infrastructure including server setup, environment variables, deployment pipelines, and database administration on Railway and Supabase.
- Implemented IT security measures including data backup protocols, access controls, and system monitoring for a live platform.
- Maintained all technical documentation and SOPs covering system architecture, configuration decisions, and maintenance procedures.

MK Solar and Installation / Barwahl Llez Kitchen -- Remote IT Support

2026

Live client websites, Kaduna, Nigeria

- Provided remote IT support, system updates, and technical troubleshooting for two live client organisations, managing hosting configurations and resolving faults as they arose.

EDUCATION

Bachelor of Computer Applications (BCA) in Computer Science

2022 - 2025

Gandhi Institute of Technology and Management (GITAM University), Bengaluru, India

- Coursework included information security, database management systems, networking fundamentals, Python, Java, C++, and web technologies.
- Study in India (SII) Scholarship recipient for September 2022.

National Diploma in Computer Science

2018 - 2020

Nuhu Bamalli Polytechnic, Zaria, Kaduna State, Nigeria

- Foundation in computing, information systems, and data management principles.
- Departmental Project Award for September 2020.

CONFERENCES AND WORKSHOPS ATTENDED

AI/ML Attack Workshop -- Cookie Theft, BEC, and Server vs Serverless Defences

2024

- Specialist technical security workshop covering adversary-in-the-middle attacks and comparative defence strategies, strengthening threat-awareness applicable to IT support environments.

CyberWarfare Labs -- OSINT and Operational Security (OPSEC) Workshop

March 2024

- Hands-on training in OSINT investigation and digital operational security, building structured analytical skills applicable to incident investigation.

My OSINT Training -- Open-Source Intelligence Workshop

March 2024

- Specialist training in data source verification and structured reporting methodology.

VOLUNTEERING AND COMMUNITY ENGAGEMENT

Computer Studies and English Teacher

December 2019 - December 2021

Nagarta School of Basic Education, Kaduna, Nigeria

- Delivered structured computer studies instruction including IT and information security awareness to primary school students, achieving a 90% comprehension rate.

Team Captain and Leadership Development

April 2022 - June 2023

Gandhi Institute of Technology and Management, India

- Led a team of 15+ players across regional inter-college tournaments, building communication, coordination, and team management skills.

AWARDS AND HONOURS

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT		
Certification	Issuing Body	Year
Junior Cybersecurity Analyst Career Path -- vulnerability management, network security	Cisco (NetAcad)	May 2024
Certified in Cybersecurity (CC) -- access control, risk management, incident response	ISC2 International	December 2023
Ethical Hacking Essentials	EC-Council	September 2023
Python Essentials 1 -- scripting, data types, automation functions	Cisco (NetAcad)	January 2023
